

WOW Edgemagic

EdgeMagic® is designed to manage your edge devices, commission, write, read, and verify your RFID tags and, most importantly, it can be fully integrated with your business applications.

Choose EdgeMagic to help you use RFID technology to track assets like totes or pallets, develop Pharma and ePedigree applications, and comply with EPC (Electronic Product Code) supply chain mandates.

WOW Edgemagic Features:

- Improve inventory accuracy, forecasting, and planning
- Reduce theft, out-of stock conditions, and excess inventory
- Reduce manufacturing inefficiencies and losses due to obsolete or unsaleable goods
- Track assets and work in process
- Reduce labor cost and increase efficiency
- Improve safety and security
- Improve customer experience
