WOW Reports

WOW Reports is an add-on feature of WOW that allows report development with Microsoft WORD and PDF programs. Users can easily create forms using these programs and WOW will merge and populate these documents at runtime.

WOW Reports Features:

• Create reports in minutes

• Access to any company database

• Report delivery to any web browser

• Print multiple reports

• Use for invoices, statements, reports, forms

Customer Testimonial

"I really love this reporting capability and the option to be able to print multiples in a single report. I can't wait to start on some more."

~Gail Marshall, North Carolina Board of Nursing
